Node Stripes 14628

Verschlungene Form, fließende Linien, softes Porzellan – die Zutaten der Node Vase sind simpel, das Ergebnis ist betörend. Auch in der Miniatur-Version. In 12 cm Größe entfalten die Tischvasen mit handbemaltem Streifen-Design ihren besonderen Charme. Die feinen Linien unterstreichen die dynamische Form des Knotens und verleihen »Node« einen zugleich eleganten wie frischen Look. Dazu tragen sicherlich auch die Farben bei: Mango, Blueberry, Plum und Apple wecken die Lust auf Fruchteis und Sommerfeeling.

Intertwined shape, flowing lines, soft porcelain - the ingredients of the Node vase are simple, and the result is captivating. Also in the miniature version. In 12 cm size, the table vas-

es with hand-painted stripes design reveal their distinctive charm. The fine lines underline the dynamic shape of the node and provide »Node« vases a look that is both elegant and fresh. The colours surely contribute to this: Mango, Blueberry, Plum and Apple spark the desire for fruit ice cream and summer feeling.

Forma intricata, linee fluide, delicata porcellana: gli ingredienti del vaso Node sono semplici, il risultato è seducente. Anche nella versione miniatura. In formato 12 cm, i vasi da tavola con disegno a righe dipinte a mano esprimono tutto il loro fascino speciale. Le linee sottili evidenziano la forma dinamica del nodo e conferiscono a »Node« un aspetto fresco ed elegante. A questo risultato contribuiscono sicuramente anche

i colori: Mango, Blueberry, Plum e Apple risvegliano la voglia di gelato alla frutta e sensazioni d'estate.

Miniaturvasen | Minivases

Vasen kann man nie genug haben. Wenn es sich dann noch um ausgesprochene Formschönheiten handelt, sind der Sammellei-denschaft kaum mehr Grenzen gesetzt. Gut also, dass es die beliebtesten Vasen von Rosenthal auch in einer Miniaturausgabe gibt. »Surface«, »Squall«, »Fast«, »Falda« oder »Skum« heißen die schönen Stücke. Kaum zu glauben, aber wahr: Einige von ihnen sind bereits Jahrzehnte alt. Dass die Entwürfe noch immer zeitgemäß wirken, ist genialen Gestaltern wie Tapio Wirkkala, Cairn Young oder Sebastian Herkner zu verdanken.

You can never have enough vases. When these vases feature outstandingly beautiful shapes, there are virtually no limits to a person's passion for collecting them. So it's good to know

that Rosenthal's most popular vases are also available in miniature. These beautiful items are available in »Surface«, »Squall«, »Fast«, »Falda« and »Skum« designs. It's hard to believe that some of them have already been around for decades. The fact that these designs are still in keeping with the times is thanks to brilliant designers such as Tapio Wirkkala, Cairn Young and Sebastian Herkner.

Di vasi non se ne ha mai abbastanza. Se poi i vasi hanno forme di una bellezza estrema, non ci sono quasi più limiti alla passione per la collezione ed è fantastico che i vasi più amati di Rosenthal siano disponibili anche in miniatura. I pezzi più belli si chiamano »Surface«, »Squall«, »Fast«, »Falda« o »Skum«. È difficile credere che alcuni di loro siano stati creati già decenni fa. Il fat-

to che le loro forme siano tuttora moderne e attuali, è merito di designer quali Tapio Wirkkala, Cairn Young o Sebastian Herkner.

On n'a jamais trop de vases. Et à la vue de créations d'une telle beauté, il est difficile de ne pas succomber à l'envie irrésistible de les collectionner. Heureusement, les vases les plus appréciés de Rosenthal sont également disponibles en modèle miniature. Ces superbes pièces portent le nom de »Surface«, »Squall«, »Fast«, »Falda« ou »Skum«. Incroyable mais vrai: certaines de ces pièces ont déjà plusieurs décennies. On doit leur caractère toujours contemporain au génie de leurs créateurs, qu'il s'agisse de Tapio Wirkkala, de Cairn Young ou de Sebastian Herkner.

Die Vase »Skum« (dän.: Schaum) des Architekturbüros BIG ist einem aufblasbaren Kunstpavillon nachempfunden, den der dänische Star-Architekt Bjarke Ingels 2016 für die Brauerei Tuborg entworfen hat. Ähnlich Seifenblasen verbinden sich Kugeln aus feinem Porzellan miteinander und fügen sich zu einem charakterstarken Objekt zusammen, das sich in jedem Interieur behauptet.

The vase »Skum« (Danish: foam) by BIG is based on an inflatable art pavilion designed by the Danish star architect Bjarke Ingels in 2016 for the Tuborg Brewery. Similar to soap bubbles, balls of fine porcelain are combined together to form an object with a strong character that fits any interior.

Il vaso »Skum« (danese: schiuma) dello studio di architettura BIG si basa su un padiglione gonfiabile che l'architetto danese Bjarke Ingels ha progettato nel 2016 per il birrificio Tuborg. Come bolle di sapone, le sfere di porcellana finissima si uniscono e si fondono fino a formare un oggetto ricco di carattere che si distingue in qualsiasi interno.

Le vase »Skum« (danois : mousse) de l'agence d'architectes BIG ressemble à un pavillon artistique gonflable que l'architecte star danois Bjarke Ingels a créé en 2016 pour la brasserie Tuborg. Pareilles à des bulles de savon, des boules en porcelaine fine se relient l'une à l'autre et s'assemblent pour former un objet de caractère qui s'affirme dans chaque intérieur.

La Chute

Nach seinem Abschluss am French National Institute for Advanced Studies in Design, l'ENSCI-Les Ateliers, gründete

Cédric Ragot (1973–2015) sein eigenes Designstudio. Er entwarf u. a. Möbel für führende Möbelhersteller wie Roche Bobois. Dabei blieb er seiner Philosophie stets treu: „Der sichtbare Teil meiner Arbeiten kann ganz unterschiedlich ausfallen. Auf jeden Fall aber versuche ich, eine überraschende Lösung auf eine spezifische Problemstellung zu finden.“

Cédric Ragot (1973–2015) set up his own design studio after graduating from the French National Institute for Advanced Studies in

Design, ENSCI-Les Ateliers. *Among other things, he designed furniture for leading furniture manufacturers such as Roche Bobois. In doing so, he remained true to his philosophy 'at all times: "There's a great deal of variation in the way the visible part of my works can turn out. In any case, however, I try to find a surprising solution to a given task".*

Dopo aver completato gli studi presso l'Istituto nazionale francese per gli studi avanzati di design, ENSCI-Les Ateliers, **Cédric Ragot** (1973–2015) ha fondato il proprio studio di design. Ha creato anche mobili per produttori leader come Roche Bobois. È rimasto sempre fedele alla sua

filosofia: “La parte visibile dei miei lavori può apparire ogni volta molto diversa. Ma in tutti i casi cerco di trovare una soluzione sorprendente a un problema specifico.”

Cédric Ragot (1973–2015) a créé son propre studio de design après ses études à l'École nationale supérieure de création industrielle, ENSCI-Les Ateliers. Il a dessiné entre autres des meubles pour des fabricants de renom tels que Roche Bobois. Il est par ailleurs toujours resté fidèle à sa philosophie : « La partie visible de mes travaux peut revêtir différents aspects... mais dans tous les cas j'essaie de trouver une solution étonnante à un problème spécifique. »

Anknüpfend an die Vasenentwürfe »Fast«, »Squall« und »Blown« fängt das Objekt »La Chute« die Utopie des Bewahrens einer Bewegung im Moment ein. Zwei Vasenkörper schmelzen wie Wachs dahin, ohne Kontur und Form gänzlich aufzulösen. Leicht und doch präzise erzählt der Entwurf vom Ausloten der Verformbarkeit von Material im Spannungsfeld von Raum, Zeit und Materie und den großen Fragen von Schöpfung und Endlichkeit.

Following on from the vase designs »Fast«, »Squall« and »Blown«, the object »La Chute« captures the utopia of preserving a movement

in the moment. Two vase bodies melt like wax without completely dissolving the contour and shape. Light and yet precise, the design tells the story of exploring the deformability of material in the field of tension between space, time and matter and the great questions of creation and finiteness.

Riccollegandosi al vasellame delle linee »Fast«, »Squall« e »Blown«, »La Chute« racchiude in sé l'utopia della conservazione del movimento. Due vasi si fondono come cera, senza perdere però interamente contorni e forma. Il design sperimenta con leggerezza e precisione la malleabilità dei ma-

teriali con la variazione di spazio, tempo e materia e le grandi questioni legate alla creazione e alla finitezza.

Faisant suite aux vases »Fast«, »Squall« et »Blown«, »La Chute« reprend l'utopie de la conservation d'un mouvement. Deux corps de vases se fondent l'un dans l'autre comme de la cire, sans contours, les formes fusionnant parfaitement. À la fois légère et précise, cette création raconte la recherche de la plasticité des matériaux dans le champ de tension de l'espace, du temps et de la matière, et pose les grandes questions de la création et de la finitude.

Freeze, Spindrift, City, Manhattan, Snow – komplexe, spiralförmig gedrehte geometrische Muster überziehen die weißen Porzellankörper mit überraschenden Oberflächenstrukturen und verwandeln sie in skulpturale Objekte mit innovativem 3-D-Effekt. Dreiecke werden zu frostigen Blüten, Kristalle formieren sich zu Schneeflocken, kubische Körper bilden eine Skyline. Dazu gesellt sich ein Schuss Poesie, wenn sich das Licht auf der Oberfläche bricht. Schön als Einzelstück oder arrangiert als dekoratives Vasenensemble.

Freeze, Spindrift, City, Manhattan, Snow – complex, spiral-twisted geometric patterns cover the white porcelain bodies with surprising surface textures, transforming them into

sculptural objects with an innovative 3D effect. Triangles become frosty flowers, crystals are shaped into snowflakes, cubic objects create a skyline. This blends with a dash of poetry when light refracts on the surface. Beautiful pieces on their own or as part of a decorative vase set.

Freeze, Spindrift, City, Manhattan, Snow – fantasie complesse, geometriche con rotazione a spirale ricoprono il corpo in porcellana bianca con strutture della superficie sorprendenti, trasformandoli in oggetti scultori con un innovativo effetto tridimensionale. I triangoli diventano fiori di ghiaccio, i cristalli diventano fiocchi di neve, i corpi cubici formano una skyline. Il tutto è accompagnato da un briciolo di poe-

sia quando la luce s'infrange sulla superficie. Bello come pezzo unico o sistemato come ensemble decorativo di vasi.

Freeze, Spindrift, City, Manhattan, Snow : les motifs complexes, géométriques, torsadés en forme de spirale recouvrent le corps en porcelaine blanche de surfaces structurées inattendues et apportent aux objets sculpturaux un effet 3D innovant. Les triangles deviennent des fleurs givrées, le cristal prend l'apparence de flocons de neige, les éléments cubiques dessinent un paysage urbain. À cela, s'ajoute une note de poésie lorsque la lumière se réfracte sur la surface. Ces pièces sont parfaites seules ou disposées comme ensemble de vases décoratifs.

Gegensätze ziehen sich bekanntlich an. Konkret am Grund, abstrakt am Oberrand bringt »Flux« die Polarität zur Einheit. Der Designliebling aus feinem Porzellan ist auch als formschöne Glasvase erhältlich: Klar, Grau und Berry. Das transparente Material unterstreicht die Leichtigkeit und betont die fließende Form der Vase, in der Blumenarrangements aller Art ihren stylischen Platz finden.

Opposites attract, as we all know. Concretely at the bottom, abstractly at the top, »Flux« brings polarity to unity. The design darling made of fine porcelain is also available as a beautifully shaped glass vase: clear, grey and berry. The transparent material underlines the lightness and emphasises the flowing form of the vase, in which flower arrangements of all kinds find their stylish place.

Come risaputo, gli opposti si attraggono. Concreto alla base e astratto nella parte superiore, »Flux« porta la polarità all'unità. Questo oggetto del design preferito, realizzato in finissima porcellana, è disponibile anche come vaso in vetro dalle forme accattivanti: in vetro, grigio e berry. Il materiale trasparente sottolinea la leggerezza ed enfatizza la forma fluida del vaso, in cui le composizioni floreali di ogni tipo trovano una collocazione elegante.

Comme on le sait, les opposés s'attirent. Concret à la base, abstrait au niveau du bord supérieur, »Flux« unit les contraires. Ce favori design en porcelaine fine se décline également sous forme d'élégant vase en verre : en transparente, grise et baies rouges. Le matériau transparent souligne la légèreté et accentue la forme fluide du vase, dans lequel les compositions florales de toutes sortes trouveront leur place avec style.
